

Clear span: Arch

Clear Span: Arch

EXAMPLES

Safety: Same for all.

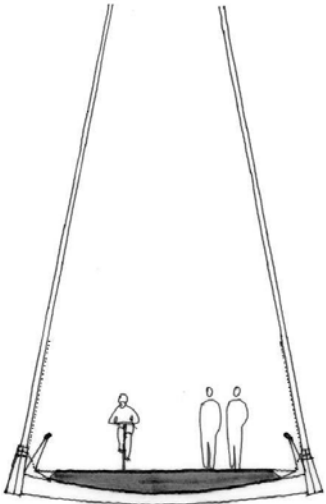

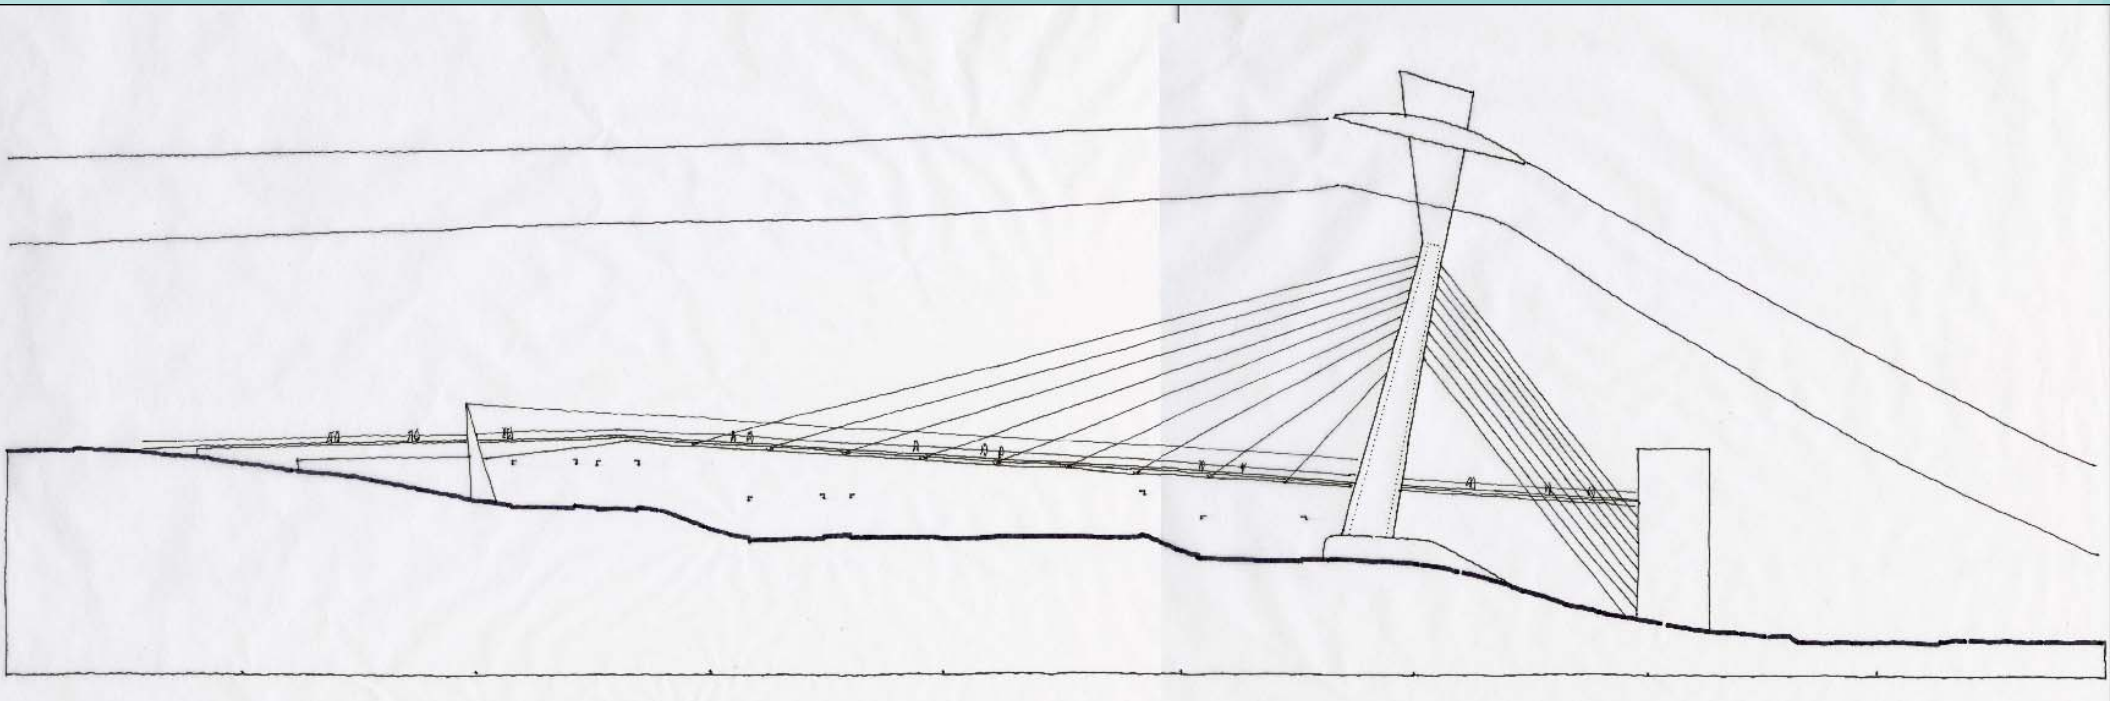

User experience: Superstructure adds visual excitement from bridge deck.

Aesthetics: Is a dramatic portal; introduces a shape different than the tram tower. Bridge scale perception too big for pedestrian/bike function.

Sustainability: Cables require more frequent inspection and may require replacement. More efficient use of materials.

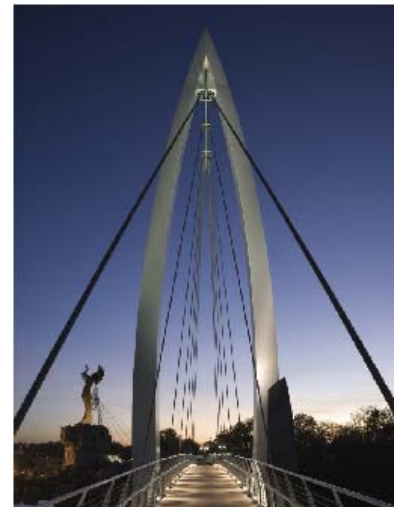

Approximate cost: \$8.2 m (\$7 m budget)

Clear Span: Cable Stayed

Clear Span: Cable Stayed

EXAMPLES

Safety: Same for all.

User experience: Tower and cables create dramatic experience from bridge deck; visual demarks east-west pedestrian corridor.

Aesthetics: Playful visual relationship with tram tower, contemporary and progressive image. Slender, minimalist bridge deck. Tower/cable pattern is dramatic.

Sustainability: Cables require more frequent inspection and may require replacement. More efficient use of materials.

Approximate cost: \$9.1 m (\$7 m budget)
